## APPLICATIONS AND FEATURES:

Southwire's 5kV HVTECK is a CSA armoured cable for industrial and commercial medium voltage applications. Rated FT4, $-40^{\circ} \mathrm{C}$, Hazardous Locations (HL). These cables are capable of operating continuously at the conductor temperature not in excess of $105^{\circ} \mathrm{C}$ for normal operation, $140^{\circ} \mathrm{C}$ for emergency overload, and $250^{\circ} \mathrm{C}$ for short circuit conditions. Rated for 1000 lbs /FT maximum sidewall pressure. These cables feature sunlight and moisture resistance, exceptional corona resistance, resistance to most chemical soils and acids and are flame retardant.
